

## **Mackie Lake House Covid-19 Phase 2 Protocol**

Mackie Lake house has implemented measures to keep staff and volunteers at least 2 metres apart as much as possible.

- Aside from staff, only one volunteer is to be inside the House at any given time.
- All staff, volunteers, and guests are to come in through the kitchen door only.
- All staff, volunteers, and guests are to wash their hands at the handwash sink in the kitchen before signing in.
- All volunteers are directed to go straight to their work space.
- All frequently touched surfaces are to be sanitized on a regular basis. (doorknobs, handrails, keyboards, telephones, etc.)

Mackie Lake House is currently open by appointment only and is available for small group rentals where the total people on site are less than 50. Social Distancing and washing hands is required. Where a social distance of at least 2 metres is unpractical, masks should be worn.

Anyone experiencing any type of cold or flu symptoms or people who have recently travelled are asked to stay home and save their visit for another time.
